

# Ongoing Learning

# Ongoing Learning

Learning R is not unlike learning a spoken language:  
Unfortunately it takes time to build vocab and learn syntax.  
Regular (even total) immersion is the best way to progress.

Will reward you if you can make the investment

# Quick fix

What if you get stuck?  
Google (Stack Overflow)  
Strategy

# Stack Overflow Strategy

Vocabulary to describe the problem  
(which you may not have right away)

There is more than one style of writing R!  
Best to find the style that you're already using.  
Beware the date of answer.

# Stack Overflow Strategy

## RcppCNPY 0.2.9

March 22, 2018

By Thinking inside the box

Another minor maintenance release of the RcppCNPY package arrived on CRAN this evening. RcppCNPY provides R with read and write access to NumPy files thanks to the cnp library by Carl Rogers. There is only small code change: a path is now checked be...

## The most prolific package maintainers on CRAN

March 22, 2018

By David Smith

During a discussion with some other members of the R Consortium, the question came up: who maintains the most packages on CRAN? DataCamp maintains a list of most active...

## Comparing additive and multiplicative regressions using AIC in R

March 22, 2018

By Ivan Svetunkov

One of the basic things the students are taught in statistics classes is that the comparison of models using information criteria can only be done when the models have...
